

Table 2. Summary of Wetland and Open Water Impacts

Stream #/ Name	Drainage Association	Lost Type	HUC #	Stream Description	On 303(d) List?	Length (feet)/Type of Temporary Impact	Length (feet)/Type of Permanent Impact
Stream 2a/Flat Creek	Tributary of Ohoopsee River	Intermittent	03070107	Channel 3' wide and approximately 1' deep; Substrate consists of sand and silt; Vegetation includes sweet bay, red maple, inkberry, privet, tulip poplar, and wax myrtle.	NO	0.00	300'/ culvert
Stream 6a/ Little Crooked Creek	Tributary of Crooked Creek	Intermittent	03070107	Channel 2' to 4' wide and 1' to 3' deep and somewhat braided; Substrate consists mainly of silt; Vegetation includes privet, muscadine, tulip poplar, red maple, and water oak	NO	0.00	250'/ culvert
Stream 10a	Tributary of Crooked Creek	Intermittent	03070107	Channel 2 to 5' wide and a 1' to 6' deep; Vegetation along the banks includes sweetgum, Japanese honeysuckle, red maple, and wax myrtle; Planted pine planted outside of the 10' to 15' wide natural buffer	NO	0.00	200'/ culvert
Stream 14a/North Prong Canoochee Creek	Tributary of Canoochee Creek	Intermittent	03060203	Channel 6' wide and 1' deep; Vegetation along the stream includes privet, sweetgum, poison ivy, water oak, muscadine, red maple, giant cane, and planted pine	NO	0.00	200'/ culvert
Stream 17a	Unnamed tributary of Rocky Creek	Intermittent	03060201	Channel 3' to 5' wide and a 2' to 4' deep; Substrate consists of sand and silt; Vegetation includes red maple, sweetgum, cat-briar, privet, poison ivy, muscadine, black willow, tulip poplar, and Japanese honeysuckle	NO	0.00	150'/ culvert

Table 2. Summary of Stream Impacts

Stream #/ Name	Drainage Association	Lost Type	HUC #	Stream Description	On 303(d) List?	Length (feet)/Type of Temporary Impact	Length (feet)/Type of Permanent Impact
Stream 20a	Unnamed tributary of Rocky Creek	Intermittent	03060201	Channel 3' to 4' wide by 1' to 3' deep; Vegetation includes wax myrtle, sweetgum, red maple, tulip poplar and planted pine	NO	0.00	0.00'
Stream 27a/ Rocky Creek	Tributary of the Ogeechee River	Perennial	03060201	Channel 5' to 12' wide and 3' to 5' deep; Substrate consists of sand and gravel; Vegetation along the stream banks includes red maple, sweetgum, willow oak, wax myrtle, and water oak.	NO	0.00	175'/ culvert
Stream 28a	Unnamed tributary of Rocky Creek	Perennial	03060201	Channel is 6' to 15' wide and 2' to 6' deep; Substrate consists of sand; Vegetation along the banks includes red maple, Japanese honeysuckle, water oak, Virginia creeper, willow oak, sweetgum, rush species, privet and johnsongrass.	NO	0.00	100'/ culvert
Stream 29a	Unnamed Tributary of Swamp Creek	Intermittent	03060201	Channel is 4' wide and 6" deep; Substrate consists of sand and silt; Vegetation along the banks includes privet, red maple, sweetgum, Japanese honeysuckle, and hickory.	NO	0.00	120'/ culvert
TOTAL IMPACTS						0.00	1,495'
